

710 SUPPORT SERVICES GOALS

Support services are essential to the successful operation of the Williams Bay School District. Management of auxiliary operations is, therefore, an important responsibility of the District Administrator. It should be remembered, however, that education is the district's primary function, and all support services shall be provided, guided and evaluated by this commitment.

To provide support services that are truly supportive of the educational program, the Board establishes these goals:

- The provision of a physical environment for teaching and learning that is safe and pleasant for students, staff and the public.
- The provision of safe transportation for students to and from school and nutritious meals for students.
- The provision of timely and responsive support service resources and assistance to fulfill the needs of the educational program as they develop.
