

821.3 SCHOOL DISTRICT PUBLICATIONS

Publications issued by and in the name of the district schools shall reflect the high regard and aspirations of district citizens for their schools.

A newsletter, if authorized by the District Administrator, will be published by the Williams Bay School District, and distributed throughout the district. The newsletter will serve as a public information/public relations vehicle and will report the internal activities of the student body, faculty, administration, and parent-school organization.

Each school may, with the principal's approval, establish a school newsletter for the students of the school and their parents. Such publications should be carefully prepared. The principal is responsible for supervising such publications to confirm with the intent of this policy.
