Date

Dear Parent(s) of 8th Graders:

The Human Growth and Development class will be taught again this year to 8th graders starting second semester. The eighth-grade curriculum is entitled Human Sexuality: Values and Choices. The unit will consist of approximately fifteen 40 minute lessons and will be included as part of the Physical Education curriculum. Ms. Racky and Mr. Breen will be the instructors.

The Williams Bay School District recognizes that the topic of human growth and development is a very sensitive and important area of your child's education and we do not intend for this course to replace the parents' vital role in teaching and guiding their children. Our primary objective is to give students reliable information and to enhance and strengthen the communication bond between you and your child. Throughout our instruction we will encourage students to seek further information from you.

On the District Website, you will find a copy of the Williams Bay School District Human Growth and Development Curriculum, as well as statements concerning our District's philosophy, goals and stance on sensitive topics. A list of the units and links to videos used at the Middle/High School are available on our website at <https://www.williamsbayschools.org/schools/middle-high/families/hgd.cfm>. If you have questions or need more information, please contact Mr. Breen or Ms. Racky. They are happy to answer any questions you might have about the curriculum and are also willing to meet with you.

Parents who wish to exclude their child from all or part of the human growth and development unit must fill out the form at (link will be sent with letter to parents). Excluded students will be furnished with and required to complete alternative assignments on health-related issues.

If you have any questions regarding this matter, please call me at (262) 245-6224. Thank you and we hope to see you on parent preview night.

Sincerely,

Dr. William White
Middle and High School Principal
